

Workforce that is innovative and creative especially in this time of New Normal	Championing and Applying Innovation	To enhance and develop the personnel's ability to think outside of the box and implement these new ideas while creating and delivering better value or service excellence.	Harnessing Innovation and Creativity at Workplace	200	All Organizational Units		160,000.00	Laptop, Internet Connection	HRDD
Oriented employees on the four HR Core Systems	Delivering Service Excellence	To raise the awareness of all MIAA employees and personnel on the primary functions of the four (4) HRM pillars/core systems at the MIAA.	Cascading Session on PRIME-HRM	1400	All Organizational Units		0.00	Laptop, Internet Connection	HRDD
Gender-sensitive MIAA workforce	Professionalism	To develop an awareness of Gender and Development and the gender issues and to enumerate the socialization process that affects the gender roles	Gender Sensitivity Training	200	All Organizational Units		0.00	Laptop, Internet Connection	HRDD

Oriented employees on ISO 14001:2015 Environmental Management System	Championing and Applying Innovation	To introduce the MIAA personnel to the basics of setting up an environmental management system - from understanding the areas of commitment from the top management, to learning how to implement a life cycle perspective	Environmental Management System Awareness (Cascading)	500	All Organizational Units		0.00	Laptop, Internet Connection	HRDD
MIAA employees adopting the practice of good housekeeping especially in their workplaces	Delivering Service Excellence	To enumerate and discuss the MIAA 5S Practice of Good Housekeeping including the MIAA 5S Standards to be implemented by offices to ensure commitment to the Authority's 5S Program	5S The Practice of Good Housekeeping	200	All Organizational Units		0.00	Laptop, Internet Connection	HRDD
TOTAL						160,000.00			

B. LEADERSHIP COMPETENCIES - MANDATORY

<p>M/AA managers and supervisors equipped with five leadership competencies</p>	<p>All Leadership Competencies</p>	<p>The CPro is a program offered by the Civil Service Commission as an alternative mode of satisfying the qualification standards for division chief and executive/managerial positions where the educational requirement is a Master's Degree, provided that the other requirements are also met. It is designed to equip government leaders/managers with the five (5) leadership competencies, such as Thinking Strategically and Creatively; Leading Change; Building Collaborative, Inclusive Working Relationships; Managing Performance and Coaching for Results; and Creating and</p>	<p>Leadership and Management Certification Program (CPro)</p>	<p>30</p>	<p>Top Management to Middle Management</p>										<p>1,500,000.00</p>	<p>Laptop, Internet Connection</p>	<p>HRDD</p>
---	------------------------------------	---	---	-----------	--	--	--	--	--	--	--	--	--	--	---------------------	------------------------------------	-------------

MIAA Officials and Managers capable of dealing and handling emerging issues on leadership	Leading Change	To develop the knowledge of MIAA officials and supervisors on exhibiting outward looking leadership and how to come up with leadership strategies	Emerging Issues and Trends on Leadership	70	Top Management to Middle Management																																																																									
Emotionally intelligent MIAA officials and managers	Creating and Nurturing a High Performing Organization	To help the participants learn and understand and enhance their emotional intelligence and apply proven strategies to become more authentic, influential, innovative, inspirational leaders and mentors in their respective offices and/or sections.	Emotional Intelligence and Leadership	200	Supervisors																																																																									

MIAA Officials and Managers with enhanced skills in conducting developmental conversations	Managing Performance and Coaching for Results	Participants shall be able to effectively conduct developmental conversations with others using a structured approach grounded on generally accepted principles, processes, and practices related to mentoring and coaching.	Developmental Conversation of Leaders	200	Supervisors													400,000.00	Laptop, Internet Connection	HRDD
Enhanced skills of supervisors to lead and drive results	All 5 Leadership Competencies	To explore the differences between management and leadership and how to balance both sets of skills, and to let participants learn practical leadership skills to be applied to work situations and challenges	Supervisory Development Course	200	Supervisors													400,000.00	Laptop, Internet Connection	HRDD
TOTAL																				
2,850,000.00																				

C. ORGANIZATIONAL COMPETENCIES - MANDATORY

Enhanced technical writing skills	Writing Effectively	To enable the MIAA personnel to develop writing skills that reflect the principles of good grammar, mechanics and organization.	Workshop on Technical Writing	100	All Organizational Units													80,000.00	Laptop, Internet Connection	HRDD
-----------------------------------	---------------------	---	-------------------------------	-----	--------------------------	--	--	--	--	--	--	--	--	--	--	--	--	-----------	-----------------------------	------

Enhanced speaking skills both for internal and external clients	Speaking Effectively	To develop substantial growth and personal development among participants, and to unleash their potentials and capabilities in conversing using the English language.	Workshop on Speaking Effectively	100	All Organizational Units															80,000.00	Laptop, Internet Connection	HRDD
Enhanced skills in managing risks	Risk Management	To raise basic awareness of the participants on risk management concepts and mechanisms, and to enable them to identify and manage risks in their offices in the context of ISO 14001:2015 EMS	Workshop on Risk Management	100	All Organizational Units															40,000.00	Laptop, Internet Connection	HRDD
Enhanced skills in problem solving and decision-making	Problem Solving and Decision-Making	To provide MIAA personnel with the analytic tools, tactics, and strategies for working with problems in the professional environment.	Problem Solving and Decision-Making Course	100	All Organizational Units															80,000.00	Laptop, Internet Connection	HRDD

Enhanced computer skills	Computer/Database	To provide tutorial on basic commands of commonly-used Microsoft Office productivity software such as Basic Computer Operation and Safety Handling, MS Word Processing, Electronic Spreadsheet, and MS Powerpoint	Online Tutorial for Office Productivity	100	All Organizational Units															0.00	Laptop, Internet Connection	HRDD
Enhanced skills in records and archives management	Records Management	To ensure the safety of organizational information and to understand and implement monitoring and controlling of a record management system.	Workshop on Record and Archives Management	100	All Organizational Units															40,000.00	Laptop, Internet Connection	HRDD
Enhanced skills in the doctrine of completed staff work	Feedbacking Skills	To equip the participants with the right knowledge, attitude, and proper skills on how to prepare, develop, coordinate, and communicate when work is completed.	Workshop on Completed Staff Work	100	All Organizational Units															40,000.00	Laptop, Internet Connection	HRDD
TOTAL																			360,000.00			

D. TECHNICAL COMPETENCIES - MANDATORY

Enhanced knowledge in the implementation of Airport Security Quality Control Programme	Airport Quality Control	To provide aviation security management personnel the knowledge and skills needed to develop effective aviation security quality control measures under the context of a National Civil Aviation Security Quality Control Programme (NCASQCP)	Airport Security Quality Control Programme Workshop (derived from National)	2	Airport Security Inspectorate Office		5,000.00	Laptop, Internet Connection	HRDD
Enhanced knowledge and skills in conducting management audit	Management Auditing	To provide participants a focused review of advanced audit techniques that may include essentials of providing internal audits, effective communication of internal audit findings, etc.	Seminar-Workshop on Management Auditing	2	Internal Audit Services Office		5,000.00	Laptop, Internet Connection	HRDD

Oriented on recent policies on legal practice	All Technical Competencies of Legal Office	The program is being offered to comply with Rule 2, Section 2 of S.C. Bar Matter No. 850 (Rules on MCLE) which states that: "Members of the IBP is not exempt under Rule 7 shall complete every three (3) years at least thirty-six (36) hours of continuing legal education activities approved by the MCLE office".	Mandatory Continuing Legal Education (MCLE)	7	Legal Office and All lawyers									100,000.00	Laptop, Internet Connection	HRDD
Enhanced knowledge on internal safety auditing	Safety Management System	To equip M/AA personnel with the skills needed to undertake a comprehensive health and safety audit.	Internal Safety Auditing Techniques Training	2	Safety Management Systems Office									10,000.00	Laptop, Internet Connection	HRDD
Enhanced knowledge on safety and risk management	Safety Management System/Risk Management	To improve M/AA's operational safety by correctly identifying hazards providing effective controls to mitigate safety risks, and reducing equipment loss and damage.	Safety Risk Management (Hazard Identification and Risk Assessment)	2	Safety Management Systems Office									10,000.00	Laptop, Internet Connection	HRDD

Enhanced technical competencies on Investigating aircraft accident	Safety Management System/Risk Management	To introduce industry best practices for Accident and Incident Investigation at airports. Participants will discover and discuss key concepts and issues such as the impact of human factors on increasing incidents and accidents in aviation.	Aircraft Accident Incident Investigation and Prevention (AIIIP)	2	Safety Management Systems Office											10,000.00	Laptop, Internet Connection	HRDD
Enhanced skills in Real Estate/Asset Management in an airport setting	Real Estate/Asset Management	To enable participants to learn about the updates on Real Estate Management designed around discovering viable sources of real estate capital, comprehending real estate benchmarking indicators, and studying current market opportunities.	Short Course on Updates on Real Estate Management/Asset Management	2	Business Investment and Development Division											10,000.00	Laptop, Internet Connection	HRDD

Enhanced knowledge on contract preparation and awarding	Concessions Management	To be able to effectively respond to the end-users' needs and satisfy the Authority's obligations to its suppliers and service providers on time.	Training on Development and Contract Award Process	2	Terminal Concession Division																																				
Enhanced knowledge on strategies and techniques when doing benchmarking	Organization and Systems Management Improvement	To learn why benchmarking is vital and viable tool in providing useful information for improving virtually any organisation or activity and to explore the different types of benchmarking and when to apply them in the airport context	Benchmarking Strategies and Techniques	2	Systems and Procedures Improvement Division																																				

Oriented on updates and recent policies on government accounting and taxation	General Accounting	To equip the personnel of the Government Corporations classified as Government Business Enterprises (GBEs) with adequate understanding of the International Financial Reporting Standards (IFRS) as a global phenomenon intended to bring about greater transparency and a higher degree of comparability in financial statements in order to achieve the goal of one uniform and globally accepted financial reporting standards to enable entities around the world to generate quality general purpose financial reports.	Accounting and Taxation Updates: 1. Philippine Financial Reporting Standards Updates (applicable to MIAA) 2. Tax Updates Seminar (applicable to MIAA) (with CPD provider accredited)	5	Accounting Division											25,000.00	Laptop, Internet Connection	HRDD
---	--------------------	--	--	---	---------------------	--	--	--	--	--	--	--	--	--	--	-----------	-----------------------------	------

Enhanced skills in bookkeeping	General Accounting	To help MIAA personnel without accounting background who need to understand and appreciate how business transactions are recorded, summarized, and interpreted for commercial decision-making process	Accounting for Non-Accountant	5	Accounting Division																				25,000.00	Laptop, Internet Connection	HRDD
Oriented on recent policies/trusts on government budgeting and spending	Budget Preparation and Administration	To disseminate new approaches on Regional Budgeting and provide the budget officers of the MIAA an opportunity to discuss and analyze the various budget improvement objectives.	Updates on Guidelines on Government Budgeting and Spending	2	Budgeting Division																				10,000.00	Laptop, Internet Connection	HRDD

Enhanced skills in bookkeeping	Cashiering	To help MIAA personnel without accounting background who need to understand and appreciate how business transactions are recorded, summarized, and interpreted for commercial decision-making process	Accounting for Non-Accountant/ Training on Financial Management	2	Cashiering Division	10,000.00	Laptop, Internet Connection	HRDD
Enhanced knowledge on credit and collection strategies	Credit and Collection	To educate participants on how to manage accounts receivables correctly and how to craft an effective credit policy	Credit and Collection Training Course	10	Collection Division	100,000.00	Laptop, Internet Connection	HRDD
Enhanced knowledge on organizational management	Organizational Management	To refresh the knowledge of MIAA personnel on the responsibilities and operations of an organizational manager and to elaborate the rules, notions, and tools can be applied in performing such functions.	Short Course/Diploma on Organizational Management	2	Human Resource Development Division	20,000.00	Laptop, Internet Connection	HRDD

Enhanced knowledge in the implementation of RA 9184	Procurement Management	To update the knowledge of the MIAA procurement officers and other personnel on the latest updates and issuances of the GPPB and its TSO	R. A. 9184: The Government Procurement Act Updates	2	Procurement Division														10,000.00	Laptop, Internet Connection	HRDD
Enhanced knowledge skills in warehousing practices	Property Management	To help participants differentiate warehousing management and inventory management and to understand how it works individually and together and how to teach them how to apply effective practices in warehousing and inventory management that is best fitted in MIAA	Good Warehousing Practices	2	Property Management Division														10,000.00	Laptop, Internet Connection	HRDD
Enhanced technical competencies on short circuit analysis	Electrical Works	To provide a basic understanding of power system short circuit calculations and analysis	Fundamentals of Short Circuit Analysis	5	Electrical Division														50,000.00	Laptop, Internet Connection	HRDD
Enhanced technical competencies on power substation maintenance	Electrical Works	To provide a clear and perfect understanding of transmission & zone substation primary and secondary systems.	Power Substation Design and Analysis	5	Electrical Division														50,000.00	Laptop, Internet Connection	HRDD

Enhanced technical competencies on power substation maintenance	Electrical Works	To provide participants with an overview of industrial and utility substations. Hands-on labs are a major part of this course to help the technician locate weak or faulty components in the substation systems. Course focus is on medium voltage circuit breakers (air and vacuum), and switchgear. The course is designed to aid skilled qualified substation maintenance technicians in the safe performance of substation component preventative maintenance.	Systematic Approach to Substation Maintenance	5	Electrical Division									50,000.00	Laptop, Internet Connection	HRDD
---	------------------	--	---	---	---------------------	--	--	--	--	--	--	--	--	-----------	-----------------------------	------

Enhanced technical competencies on thermography	Electrical Works	Geared to the new infrared camera user and focuses on its use for a variety of condition monitoring/predictive maintenance Attendees completing all training course requirements and thermography field assignment will receive a Level I Infrared Thermography Certification.	Thermography Training Certification	5	Electrical Division											50,000.00	Laptop, Internet Connection	HRDD
Enhanced knowledge on latest trends on electrical works	Electrical Works	To enable the delivery of high quality services and products for the purpose of instilling excellence in MIAA's electrical practitioners, enhancing the Electrical Profession, and make a positive contribution to national development	Annual IEEE National and Midyear Convention	5	Electrical Division											50,000.00	Laptop, Internet Connection	HRDD

Enhanced technical capability in maintaining security systems	Electronics Systems Maintenance Services	To give knowledge, skills and attitude necessary for control, installation, maintenance, launching and inspection of various security systems such as burglar alarm, fire alarm, sprinkler supervision, access control, antitugue, emergency communication and video surveillance as well as local control centers and central monitoring.	Security Systems Maintenance Services	5	Electronics and Communications Division															50,000.00	Laptop, Internet Connection	HRDD
Enhanced technical skills in designing, planning, and providing support services on electronic systems	Design, Planning and Technical Support Services	To give participants the pertinent knowledge on the operation, maintenance, troubleshooting and repair electrical and electronic equipment	Design, planning and technical support Services	5	Electronics and Communications Division															50,000.00	Laptop, Internet Connection	HRDD

Enhanced knowledge on latest trends on mechanical engineering	All Technical Competencies of Mechanical Division	To improve the knowledge of mechanical engineers while providing direct assistance in providing solutions to the problems related to the practices of their profession	Philippine Society of Mechanical Engineers Convention	5	Mechanical Division																50,000.00	Laptop, Internet Connection	HRDD	
Enhanced knowledge on latest trends on building maintenance	All Technical Competencies for Buildings Division	To improve the fellowship among civil engineers around the country while imparting them knowledge on advanced practices of their profession and fostering the improvement of civil engineering education	PICE Philippine Institute of Civil Engineer Seminar	5	Buildings Division																	50,000.00	Laptop, Internet Connection	HRDD
Enhanced technical competencies on painting	Painting	To train MIAA carpentry staff the skills required in painting concrete, wood or metal including preparing construction materials and tools, interpreting technical drawings and plans, and maintaining tools and equipment	Construction Painting NC II	5	Buildings Division																	50,000.00	Laptop, Internet Connection	HRDD

Enhanced technical competencies on pipe fittings	Carpentry	To train MIAA carpentry staff the skills required in installing piping systems including observing procedures, specifications, and manuals of instruction, performing mensuration and calculation, installing overhead piping systems, and performing tack welding	Pipe Fittings NCII	5	Buildings Division		50,000.00	Laptop, Internet Connection	HRDD
Enhanced technical competencies on plumbing	Plumbing	To train MIAA plumbing staff about plumbing industry safety practices, plumbing tools and drawings, drainage systems, and water distribution systems.	Plumbing NCI, NC II	5	Buildings Division		50,000.00	Laptop, Internet Connection	HRDD
Enhanced technical competencies on masonry	Masonry	To equip MIAA masonry staff with competencies that will enable him/her to perform construction of brick, concrete block, stone etc.	Masonry NCI, NCII	5	Buildings Division		50,000.00	Laptop, Internet Connection	HRDD

Enhanced technical competencies on tile setting	Carpentry	To update the knowledge of the MIAA carpentry staff on the various building materials and construction methods	Tile Setting NCII	5	Buildings Division		50,000.00	Laptop, Internet Connection	HRDD
Enhanced technical competencies on steel works and metal fabrication	Steel Works and Metal Fabrication	To update the knowledge of the MIAA steel works and metal fabrication staff on the building, assembling and repairing products made of steel or other metals	Shielded Metal Arc Welding (SMAW) NCI, NCII, NCIII	5	Buildings Division		50,000.00	Laptop, Internet Connection	HRDD
Enhanced technical competencies on gas metal arc welding	Steel Works and Metal Fabrication	To equip MIAA steel works and metal fabrication staff with competencies that a person must achieve to weld carbon steel pipes components as specified by layout, blueprints, diagrams, work order, welding procedure or oral instructions using GMAW welding equipment.	Gas Metal Arc Welding (GMAW) NCI, NCII	5	Buildings Division		50,000.00	Laptop, Internet Connection	HRDD

Enhanced skills in designing and drafting	All Technical Competencies for Design and Planning	To improve the knowledge of architects while providing direct assistance in providing solutions to the problems related to the practices of their profession	United Architects of the Philippines Activities	5	Design and Planning Division										50,000.00	Laptop, Internet Connection	HRDD
Enhanced technical capability on aerodrome inspection	Aerodrome Ground Management	To provide aerodrome inspectors with the necessary knowledge, skills and attitudes to ensure that aerodrome inspection procedures are implemented appropriately in order to achieve the goal of safe and efficient aerodrome operations.	Aerodrome Inspection	10	Airport Ground Operations and Safety Division										200,000.00	Laptop, Internet Connection	HRDD
Enhanced technical capability on using airfield pavement markings	Apron Management	To familiarize MIAA Apron Management personnel on the markings and signs used to identify various locations around and airfield and their purpose.	Airfield Pavement Markings	10	Airport Ground Operations and Safety Division										200,000.00	Laptop, Internet Connection	HRDD

Enhanced technical capability on handling aerodrome emergency	Aerodrome Ground Management	To train MIAA Aerodrome Ground Management personnel involves the skills and knowledge required to facilitate an aerodrome emergency response.	Aerodrome Emergency Handling Course	10	Airport Ground Operations and Safety Division		200,000.00	Laptop, Internet Connection	HRDD
Enhanced skills in designing digital and print graphics	Print and Digital Graphics Arts Production	To provide participants with basic knowledge on combining technical skills and aesthetics on graphic design for print and digital graphic arts.	Short Course on Print and Digital Graphics Arts	2	Media Affairs Division		10,000.00	Laptop, Internet Connection	HRDD
Workforce with a ready pool of Ramp Controllers	Ramp Control/Apron Management	To ensure the efficient turnaround of aircraft so that flights stay on schedule. This course offers an introduction to ramp services as well as the ground handling standards and safety requirements needed to know to work safely on the ramp.	Ramp Control Training Course	20	Terminal Management		1,000,000.00	Laptop, Internet Connection	HRDD

Enhanced technical competencies on baggage handling	Baggage Handling	To educate participants on the maintenance and repair of the baggage handling system.	Baggage Handling System Operations and Maintenance	20	Terminal Management														200,000.00	Laptop, Internet Connection	HRDD
Workforce with a ready pool of Aerobridge operators	Passenger Loading Bridge Operations	To refresh the knowledge of the concerned personnel/bridge operators on the fundamentals and technicalities of their function	Passenger Loading Bridge Operations Refresher/Recurrency Course	20	Terminal Management														5,000.00	Laptop, Internet Connection	HRDD
Produce new breed of airport police	Airport Security Operations	To emphasize on the general airport police duties and functions to include the avsec measures and procedures being implemented at all airports nationwide.	Airport Police Basic Course	50	Airport Police Department														1,500,000.00	Laptop, Internet Connection	HRDD
Improved security at the NAIA complex in compliance with national and international security standards	Airport Security Operations	To train and equip newly hired Airport Police Officers of the knowledge needed to deal with the complexities of aviation security environment.	Basic Aviation Security Course	50	Airport Police Department														100,000.00	Laptop, Internet Connection	HRDD

Improved security at the NAA complex in compliance with national and international security standards	Airport Security Operations	To refresh the knowledge of existing MIAA Airport Police Officers with the complexities of aviation security environment.	Aviation Security Refresher Course	50	Airport Police Department											100,000.00	Laptop, Internet Connection	HRDD
Enhanced proficiency in handling weapons and marksmanship	Defense Tactics	To inform participants lessons about gun safety, permissible use of gun laws, and conduct a shooting proficiency exercise to airport security officers	Weapons Proficiency/Shooting Exercises	200	Airport Police Department											100,000.00	Laptop, Internet Connection	HRDD
Enhanced skills in disaster preparedness	Emergency Preparedness/Disaster	To address the needs of airport personnel in the development, maintenance and testing of their emergency preparedness and response (EPR) arrangements for nuclear and radiological incidents and emergencies.	Emergency Preparedness Training	20	Airport Police Department											100,000.00	Laptop, Internet Connection	HRDD

Workforce with a ready pool of certified Security and Surveillance Practitioner	Surveillance	To provide surveillance persone with the knowledge and skills in planning, developing and implementing a successful enterprise security awareness training program.	Certified Security and Surveillance Practitioner	5	Screening and Surveillance Department															100,000.00	Laptop, Internet Connection	HRDD
Enhanced technical skills in conducting counter surveillance	Surveillance	To educate personnel on the most effective and proven methods with which to detect hostile surveillance against fixed and mobile assets and personnel.	Counter Surveillance Training	5	Screening and Surveillance Department															100,000.00	Laptop, Internet Connection	HRDD
Improved skills on surveillance through CCTV	Surveillance	To provide CCTV operators with the necessary skills and knowledge to apply for surveillance operations within the Airport Complex	CCTV Operators Training	10	Screening and Surveillance Department															50,000.00	Laptop, Internet Connection	HRDD

Enhanced technical and leadership skills as Senior Fire Officer	Emergency Preparedness/Disaster Management	To prepare the participants with the skills, knowledge and competencies to be an effective airport fire officer.	Senior Airport Fire Officers Training Course	10	Rescue and Firefighting Division														100,000.00	Laptop, Internet Connection	HRDD
Enhanced technical and leadership skills as Incident Commander	Emergency Preparedness/Disaster Management	To provide participants with an understanding of the Incident Command System (ICS) and resource management for the fire service and their application in both emergency and nonemergency situations.	Fire Station Management Incident Command System and Management	10	Rescue and Firefighting Division														100,000.00	Laptop, Internet Connection	HRDD
Enhanced technical skills on airport firefighting techniques and tactics	Emergency Preparedness/Disaster Management	To update airport fire officers on the latest updates and best practices on airport firefighting operations, techniques and tactics.	Airport Fire Officer Firefighting Operations, Techniques and Tactics	10	Rescue and Firefighting Division														100,000.00	Laptop, Internet Connection	HRDD
Enhanced technical skills on the use of foaming agents and radio telephony during airport firefighting	Emergency Preparedness/Disaster Management	To provide participants with knowledge on aircraft flight principles, aircraft constructions and its hazards, the various types of foam agents, and radio telephony operations.	Airport Fire Officer Aircraft Hazards, Foaming Agents and Radio Telephony	10	Rescue and Firefighting Division														100,000.00	Laptop, Internet Connection	HRDD

<p>Enhanced technical competencies to undertake duties and responsibilities of a Senior Fire Officer</p>	<p>Emergency Preparedness/Disaster Management</p>	<p>To educate participants on the best practices and updates on disaster management and emergency preparedness.</p>	<p>Advanced Firemanship • Aerodrome Safety Management System • Airport Fire Safety • ARFF Vehicles' Standards • Budgeting in Airport Fire Service • Design and Siting of Airport Fire Station • Emergency On-line Communication System • Fire Precaution in Buildings • Fire Service Administration • Fire Vehicle Performance Test • Hangar Fire Protection • Hazards of Aircraft Fueling Operations • Airport Services Manual • Mass Casualty Evacuation • Planning and Development of ARFFS • Training and</p>	<p>10</p>	<p>Rescue and Firefighting Division</p>										<p>100,000.00</p>	<p>Laptop, Internet Connection</p>	<p>HRDD</p>
